Local SEO **Report**

Get found on Google Search and Maps, and turn searches into calls and visits.

This sample shows 90 days of local SEO reporting for a **multi-location business** with five Google Business Profiles.

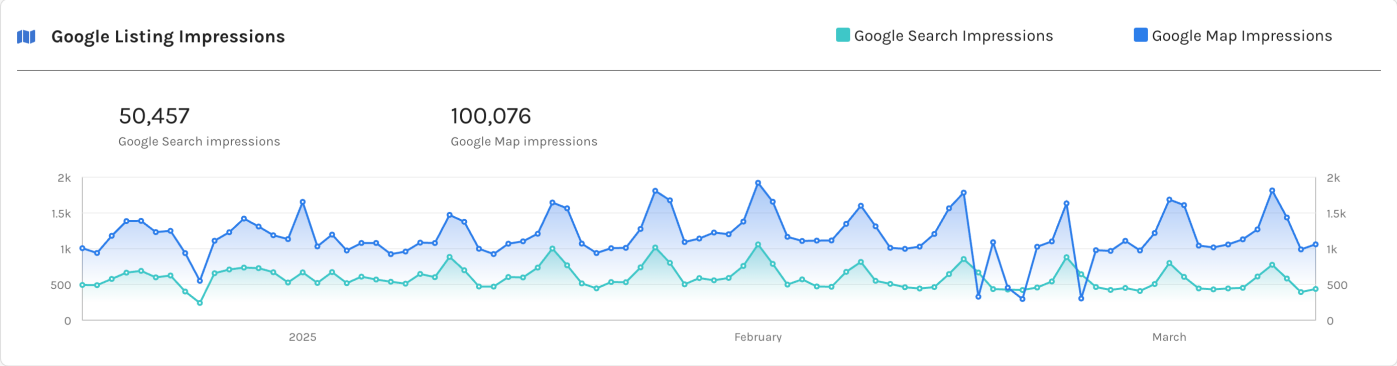

SNAPSHOT

150,533 Google impressions and **15,443 customer actions** (calls, website visits, direction requests, and menu clicks), with a 4.7-star average rating. Arrows show growth over the previous period.

GOOGLE SEARCH VS. MAPS

How often the business appeared in Google Search (50,457) and Google Maps (100,076), day by day. Two out of three views came from Maps, where "near me" customers look.

PERFORMANCE BY LOCATION

Calls, website visits, direction requests, and online orders for each location, so you can see which listings drive the most business.
