

PRODUCT INFO

Website **Development**

A new website built the way you want your business represented, by real web professionals backed by modern development and security technology.

Web Design **Stats**

for businesses:

42%

of people will leave a website because of poor functionality.

50%

of consumers believe website design is crucial to a business's overall brand.

60%

of consumers rate usability as an important design feature for an online shop.

85%

of web designers say a crowded design is the most common small-business mistake.

According to Behaviour and Information Technology, it takes just **0.05 seconds** for people to form an opinion about your website. Take control of that first impression, and update your content, look, and feel anytime in a simple-to-use interface.

- Professionally designed
- Your own domain, owned by you
- Add and edit content anytime
- Fully secure website (HTTPS)

WHY CHOOSE US?

Ownership

Many website providers hold your content hostage, making it hard to leave. If you ever cancel with us, you can always take what is rightfully yours.

Our Team

Many competitors build websites with software alone, leaving you with limited functionality, weak SEO, and a site that doesn't look right. Your site will be built by an expert web developer with decades of experience.

Flexibility

From an affordable entry-level website to a custom WordPress solution with advanced capabilities, we have the right option for you and your business.

Ready for a better website?

Talk to your Max Media Digital team about a site built to be found, trusted, and chosen, and connected to the campaigns that drive people to it.
